Life is strange for mac. For use in other operating systems, such as cross-platform web use, Calibri is licensed by Ascender Corporation and its parent company Monotype Imaging.. The licence mentioned above the download button is just an indication Please look at the readme-files in the archives or check the indicated author's website for details, and contact him if in doubt.. There is a blockquote next to it You may want to make that stand out If you open Microsoft formatted documents on your Mac like I do then you have probably run across the annoying message saying the Calibri or Cambria font is missing.. If no author/licence is indicated that's because we don't have information, that doesn't mean it's free..
